AFTER THE STORM

Co-op's linemen aid in restoration efforts

Roanoke Electric Co-op was spared the worst of Hurricane Florence's wrath in its service territory, with minimal reported outages. After full restoration of those reports, our line crew could be found joining forces in a major restoration effort at a neighboring co-op -- at times working 16-hour shifts to help get the power restored. "Co-ops stick together and help one another out. It's a brotherhood, and we love what we do," said co-op line foreman Cliff Neathery. "When we see those lights come back on....it makes it all worthwhile." REC wants to recognize our linemen for responding quickly and working safely to offer this much-needed aid. Thank you for all you do!
